Natalia G. Sarmiento

BEHAVIORAL CHANGE DESIGNER • TRANSFORMATION LEADER

nataliagsarmiento.com

PROFILE

I help organizations navigate business transformation by connecting technology, people and process. My work sits where behavioral design, organizational change, enablement and Salesforce meet — so that change is not only implemented well, but embraced by the people it affects.

EXPERIENCE

Digital Solutions Consultant, LATAM • Valvoline Global Operations

Oct 2023 – present

Drive the adoption of Salesforce-powered transformation across global markets, connecting strategy, technology, user experience, behavioral change design and organizational readiness. Lead cross-functional programs and make sure teams are prepared, trained and supported from design and testing through deployment, hypercare and long-term adoption.

Salesforce Admin, Project Lead & UX Designer • Huitzi Solutions

Jun 2020 – Oct 2022

Led all company projects and multidisciplinary teams of 3–10 people across development, admin and design. Certified Salesforce admin for health (HIPAA) and non-profit clients such as Mi Casa Resource Center in Denver, delivering with Agile/Scrum and a behavior change design process (COM-B, logic model); also owned operational processes, documentation and the company design system.

UX/UI Developer & UX Lead • IEXE Tec

Jun 2020 – Sep 2021

Led UX and front-end development for the redesign of the e-learning platform: user research and interviews, user flows, wireframes, prototypes and a design system, managing a team of four developers.

Designer, Communication & Design • UAM Cuajimalpa

Jan 2022 – Oct 2023

Editorial, branding, web and event design for the division's internal and external communication, including book covers.

Jr. Web & Editorial Designer • Tec de Monterrey

Oct 2019 – Jun 2020

Web design, editorial and branding for a project: prototypes, icons and a new navigation system, backed by user research and usability testing before and after the redesign.

Visual Notetaker • Conferences

2017 • 2023

Visual thinking to record conferences live: the Global Business Anthropology Summit (2023) and the SES International Student Energy Summit (2017).
